Opportunity Zone Advantage

- 760–778 W Wickenburg Way is located within a Qualified Opportunity Zone, offering potential capital gains tax advantages for eligible investors. Opportunity Zone designation was created to encourage long-term investment in growing communities, allowing investors to potentially defer and reduce capital gains taxes when structured properly. In addition to the immediate cash flow generated by the property’s commercial and residential components, the Opportunity Zone status provides an added layer of long-term strategic value for investors seeking tax-efficient growth and redevelopment potential.

The property’s excess land further enhances its Opportunity Zone appeal, creating flexibility for future expansion, repositioning, or additional development. Investors have the ability to pair stabilized income with forward-looking development upside — a rare combination within a designated Opportunity Zone corridor.

Property Description

- 760–778 W Wickenburg Way is a mixed-use asset consisting of two commercial office buildings and six on-site one-bedroom residential units, positioned along Wickenburg’s primary commercial corridor with strong visibility and accessibility.

The front commercial building features a large, open floor plan adaptable to medical, professional, or specialty commercial uses. The space includes ADA-compliant restrooms, storage areas, and a private office configuration, allowing for flexible layout options while maintaining functional efficiency.

The rear commercial building offers a more traditional office layout with a reception area, private offices, a full bathroom, kitchen/break area, and a well-appointed conference room. This configuration supports administrative operations, professional services, or executive office use.

The residential component includes six one-bedroom units designed to meet workforce housing demand. Each unit provides the standard amenities expected in this product t

Investment Summary

- 760–778 W Wickenburg Way presents a rare opportunity to acquire a stabilized mixed-use asset within a Qualified Opportunity Zone, offering diversified income, structured rent growth, and long-term development upside.

The property is anchored by a National Ambulance Company operating under a Triple Net (NNN) lease structure with 3% annual rent increases. The tenant reimburses property taxes and insurance, reducing landlord expense exposure while creating predictable income growth. The initial five-year term commenced December 1, 2023, with extension options in place, providing long-term stability and contractual NOI growth.

In addition to the NNN component, the property includes six one-bedroom residential units generating consistent supplemental income. This dual-income structure provides both stabilized commercial cash flow and residential diversification, reducing reliance on a single revenue source.

With an asking price of \$2,395,000 and an NOI of \$147,041, the offering reflects

NNN Tenant & Income Stability

- The commercial portion of the property is leased to a National Ambulance Company under a Triple Net lease with 3% annual rent escalations. This structure ensures steady contractual income growth year over year, enhancing long-term valuation and investor yield.

The rent schedule reflects consistent annual increases, with future escalations already negotiated beyond the initial term. The NNN structure shifts responsibility for property taxes and insurance to the tenant, limiting operational exposure and preserving NOI integrity.

This tenant type provides essential services to the community, creating operational necessity and location stability. Combined with the residential units on site, the investment benefits from income diversification across both commercial and residential sectors — enhancing resilience in varying market conditions.

Pro Forma & Growth Outlook

- The property benefits from contractual 3% annual rent escalations on the NNN tenant, providing built-in NOI growth without requiring operational changes. Over time, this structured rent growth enhances yield on cost and supports valuation expansion.

The residential component offers additional upside through lease renewals and market rent adjustments. With one unit currently available and future lease rollovers scheduled, there is opportunity to optimize rents and further strengthen cash flow. The diversified income stream allows an investor to improve performance incrementally while maintaining stable baseline income from the NNN tenant.

Additionally, the presence of excess land creates long-term redevelopment or expansion potential. Within a Qualified Opportunity Zone, future improvements or additional square footage may offer both operational upside and potential tax advantages, depending on investment structure. The combination of contractual income growth, residential upside, and

Why This Asset?

- This offering is difficult to replicate for several reasons.

First, it combines a National NNN tenant w/annual rent bumps and minimal landlord responsibility—a structure typically seen in larger metro markets—with the added benefit of residential income on the same parcel.

Second, the property is located within a Qualified Opportunity Zone, creating potential tax advantages while also offering excess land for future development. Investors are not simply purchasing stabilized income; they are acquiring long-term optionality.

Third, the asset is positioned in a growing Northwest Maricopa County corridor influenced by the \$165+ billion semiconductor expansion in North Phoenix and steady local employment drivers in Wickenburg. This provides both present stability and future demand growth.

Dual-income structure reduces concentration risk. Commercial stability combined w/residential cash flow creates a resilient investment profile that can perform across varying economic cycles.

Future Valuation Scenario (Exit Cap Sensitivity)

- At a purchase price of \$2,395,000 and a going-in cap rate of 6.14%, investors acquire stabilized income with structured annual growth.

Key return drivers over five years:

Contractual 3% annual rent bumps on the NNN tenant

Residential rent optimization potential

Opportunity Zone positioning

Excess land development optionality

If NOI grows to approximately \$170,300 by Year 5 and the asset is sold at a conservative 6.25% cap rate, the estimated value approaches \$2.7M+.

That represents potential appreciation of roughly \$330,000+, before considering loan amortization, residential rent increases, or development upside.

When layered with annual cash flow during the hold period, the total return profile becomes materially stronger than a flat, no-growth asset.

- Major Employers Map
- Aerial View Map

Location and TSMC

- 760–778 W Wickenburg Way is positioned in the heart of historic Wickenburg along its primary commercial corridor, benefiting from both local economic stability and the broader expansion of Northwest Maricopa County. The property offers direct access to U.S. 60 (Grand Avenue), providing connectivity to Surprise, Peoria, and North Phoenix employment hubs.

Approximately 55–60 miles / about a one-hour drive via US-60 and Carefree Highway (SR-74) connects Wickenburg to the North Phoenix semiconductor corridor, home to the \$165+ billion expansion of Taiwan Semiconductor Manufacturing Company (TSMC). This multi-phase project represents one of the largest private manufacturing investments in U.S. history and is expected to generate thousands of high-wage direct jobs and tens of thousands of indirect jobs through suppliers, logistics, and supporting industries. The long-term economic ripple effect continues to expand residential and service demand throughout the Northwest Valley.

New Development

- Locally, Wickenburg’s growth is reinforced by new residential development, introducing hundreds of new homes to the market. Additional employment drivers include healthcare services, emergency response operations, tourism, municipal services, education, and small-business commerce. As population growth expands westward and northward from the Phoenix metro area, Wickenburg is increasingly positioned as an affordable and accessible community within reach of major employment centers — supporting long-term housing demand and commercial stability.

The Meadows

- Wickenburg itself is home to several significant employers, including the internationally recognized The Meadows, a world-renowned behavioral health and addiction treatment campus that attracts patients from across the United States and internationally. This institution contributes to stable professional employment and year-round economic activity within the community. Additional local employment drivers include healthcare services, emergency response operations, municipal services, tourism, and Western heritage commerce. As Northwest Maricopa County continues to expand, Wickenburg is positioned to benefit from sustained population growth while maintaining its historic small-town character

Company Profile

Advisor Profile

Linda Gerchick
CCIM

Linda is a Broker and a CCIM. A good combination. This would be comparable to a Real Estate Ph.D! And it shows up in everything she does. “Professional and “highly qualified” are two things you will always hear about Linda from those who have worked with her.

And following right behind are the words “Truly dedicated.” This is what everyone declares when they meet Linda. The next thing that is clear and has been said throughout her more than 30 years of experience is that they want to be on Linda’s side of the table, not across from her when she negotiates.

In addition, she is an acclaimed author. Her seminars draw hundreds of attendees. She has spent countless hours preparing a Video Seminar Series for you as an investor!

Her clients become Raving Fans. This happens over and over again because she cares and will work tirelessly to achieve your goals.

And on top of all of this, Linda is a loving Mother, dedicated Partner and a good Friend. We should also mention, she’s now a Grandmother of 2 boys—Will and Dre.

Take a moment and give her a call. As dedicated and busy as she is, she really does answer her phone! And she will call you back, a rare thing in today’s world.

National credit tenant on long-term NNN lease
